

## Hummingbird Press Release

### Troemner Technical Seminar is on Tour

Troemner's lead Metrologist Joseph Moran, with 27 years of experience, is hitting the road to help you to better understand the following topics: Weight Selection, Requirements of CFR, Guidelines of USP 41, Internally Generated Procedures, Calibrating Balances, Identifying Environmental Effects on the Method, Methods for Pipetting with Balances, Calibration of Pipettes, Maintenance of Weights, Establishing Calibration Intervals, the Handling, Storage and Cleaning of Weights.

Troemner will be presenting six, one-day technical seminars. The first seminar will be held April 27 in Raleigh-Durham, North Carolina. The second will be held in Parsippany New Jersey on May 17<sup>th</sup>. In September we will be visiting Philadelphia and Boston, October in Chicago and San Diego in November. All of these seminars are scheduled to run from 9:00-3:00pm and breakfast and lunch will be provided. Also each person will receive a technical booklet of the presentation.

Don't let this terrific opportunity pass you by, limited seats are available so call Donna Lodek today at 856-686-4209 or e-mail her at [troemner@troemner.com](mailto:troemner@troemner.com). Please visit [www.troemner.com/seminar.php](http://www.troemner.com/seminar.php) for additional information and the reservation forms.
